Santel is an equal opportunity provider and employer.

Employee Spotlight on Network Technicians

Santel has had two new Network Technicians join our team recently that we'd like to introduce to our members.

Wesley Robertson graduated from Hanson High School and MTI before joining the military where he did IT work from 2004-2015.

Wesley and his wife have two beautiful daughters aged 5 and 6 and they are happy to be back in South Dakota and closer to

family. Wesley began working for our Tech Solutions division in Mitchell when they moved here before assuming his current position in 2017.

Asked what he likes about his job, Wesley says he enjoys the variety of devices and the continual opportunities to learn.

When he's not working, Wesley is studying for a BS Degree in Cyber Operations through DSU in Madison and enjoys spending time with family, playing video games and just messing with computers. He also likes to hunt, fish and do crafts.

Don Brady joined the Santel Team last fall. He graduated from Mitchell High

School and then MTI with a degree in Telecom. He worked with Golden West and RT Communications prior to Santel.

We are happy to have Wesley and Don working hard to keep the Santel network reliable and secure for our members.

Santel's Weather App gives you all the information you need in either forecast mode or in radar mode. To access the app at any time, simply press the **RED** button on your remote control. Then you'll press the **GREEN** button for the 5 day forecast or the **YELLOW** button will show you live radar. Be sure to check it out!

Your Billing Name and Address

The FCC requires Santel, under certain circumstances, to release the Billing Name and Address (BNA) of our telephone customers to other telecommunications providers. The main reason for releasing BNA information is to ensure proper billing for certain types of calls such as collect, third-number billed, or calling card calls. Those calls may be carried by a company who is not your chosen carrier. Under those circumstances, the carrier does not know where to bill the call, and therefore, they must request the BNA from our company. We must provide the information to the requesting carrier.

BNA can also be released to telecommunications providers for other reasons, such as verification for presubscription, servicing your account, to prevent fraud, or when you move from one location to another. If you have an unlisted or non-published telephone number, you do have options. If you do not want your BNA released by our company for third-party billed calls, collect calls and calling card calls, we need affirmative notification from you within 30 days. If you provide us with such notification, please know that your ability to make calling card calls or to receive collect calls or third-number billed calls may be denied. If you have any questions regarding BNA, please call our office at 796-4411.
